

TimeSheet & Profitability

TimeSheet allows you to track hours for all client-facing employees. The tracking process can be fitted to the needs of the Agency or Client. Each employee's Payroll Cost can be broken down into reports of Costs/Hours per Client. By combining TimeSheet with Efficiency data on Income, Costs, Direct Expenses, and Payroll, you can immediately see Efficiency per Client information online.

The screenshot displays the SIAP Web TimeSheet interface. The browser address bar shows the URL: 192.168.1.214:8080/SIAPWeb_DEM/modules/TS.aspx. The page title is "TimeSheet".

On the left, there are tabs for "MANUALES", "Horas Cliente", and "Horas Agencia". Below these is a search bar "Escriba aquí el proyecto a buscar..." and a dropdown menu for "Cliente" with "DEPORTES" selected. A vertical scale from 0 to 18 is visible.

The main area shows a calendar for "abril de 2019". The date "Martes, 2 de abril de 2019" is highlighted. The calendar grid shows hours for each day of the month.

| CIA | Actividad | Horas |
|-------|-----------|-------|
| MAN | DEP | 6.0 |
| Total | | 6.0 |

The SIAP logo is visible in the bottom right corner of the interface.
